1) Validation of my form created by me

The screenshot shows a web form titled "Sign Up" with a sub-header "Register :)" in yellow. Below the title is a red instruction: "Please fill in this form to create an account." The form contains the following fields and controls:

- First Name :
- Last Name :
- Email :
- Re-Enter Email :
- Gender : ☐ Male ☐ Female ☐ Other
- DOB :
- User Name:
- Password :
- Re-Enter Password :

2) Form Code that I created:

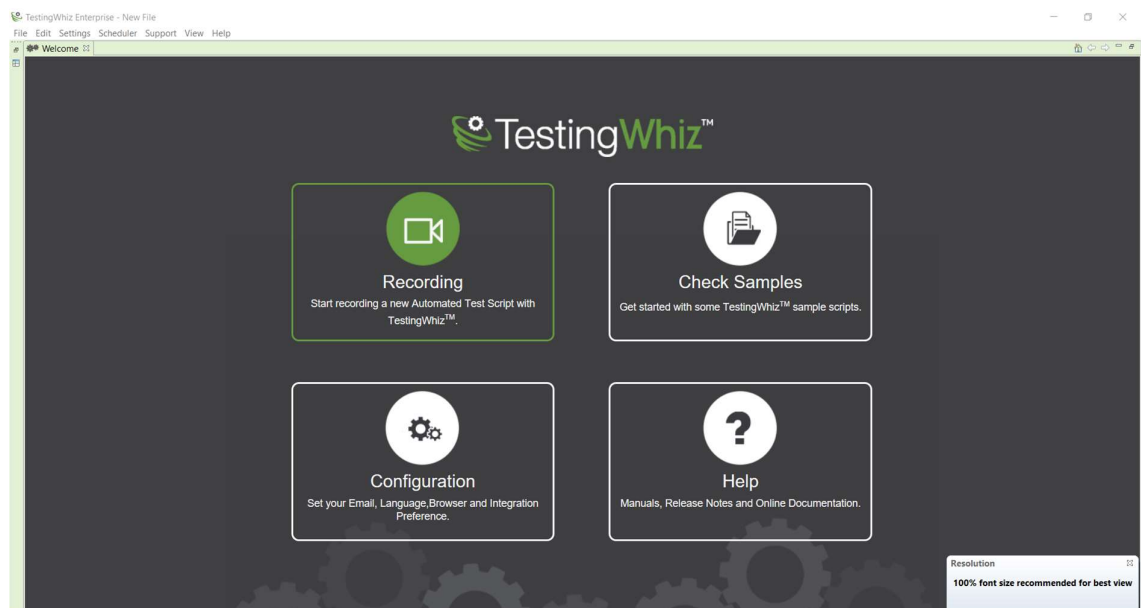

```
<html>
<head>
<title>Forms</title>
<style>
body {
background-image:url('https://images.pexels.com/photos/255379/pexels-photo-
255379.jpeg?auto=compress&cs=tinysrgb&dpr=2&h=750&w=1260');
}
#heading{
```

```
        background-color: black;
        color: yellow;
        padding: 2px;
        text-align: center;
        font-family: verdana;
        opacity: 0.89;
    }
    #p2{
        font-size: 120%;
        color: red;
    }
    #p1{
        font-family: verdana;
        font-size: 110%;
    }
    .frm {
        padding: 16px;
        background-color: white;
        opacity: 0.9;
        margin: 1px 50px 1px 50px;
    }
    input[type=text], input[type=password] {
        width: 100%;
        padding: 8px;
        margin: 5px 10px 12px 10px;
        display: inline-block;
        border: none;
        background: #f1f1f1;
    }
    #submit{
        opacity: 1;
        color:green;
        background-color: lightblue;
        padding: 8px;
        width: 20%;
    }
    #reset{
        opacity: 1;
        color:green;
        background-color: lightblue;
        padding: 8px;
        width: 20%;
    }
</style>
```

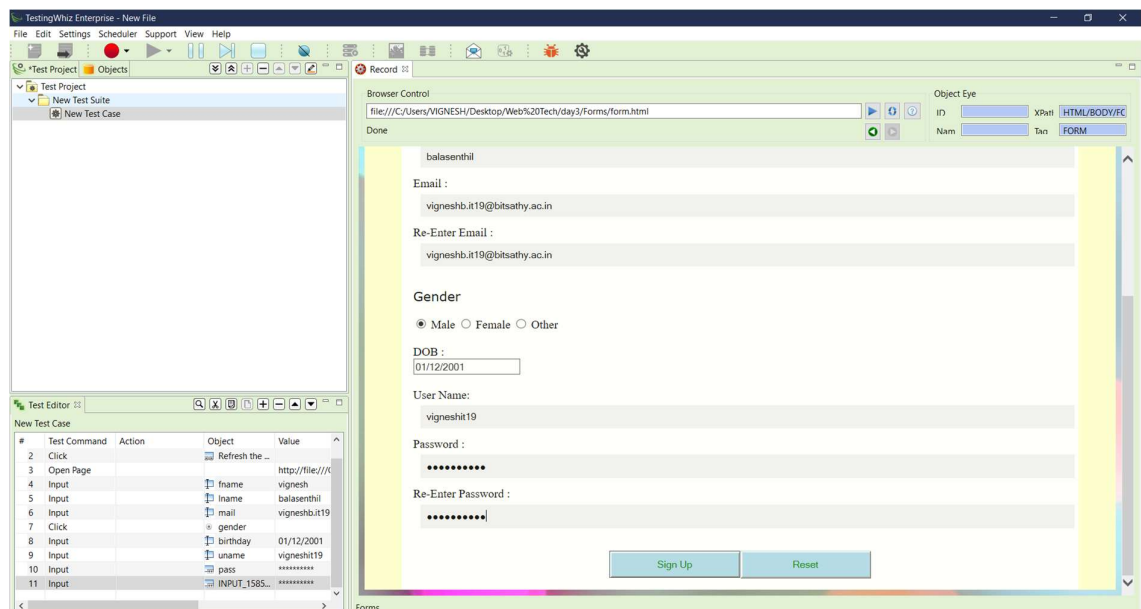

```
</head>
<body>
<center><h1 id="heading">Register :)</h1></center>

<form>
  <div class="frm">
    <center>
      <h1>Sign Up</h1>
      <p id="p2">Please fill in this form to create an account.</p></center>
      <label for="fname">First Name :</label><br>
      <input type="text" placeholder="Enter First Name" id="fname"
name="fname"><br>
      <label for="lname">Last Name :</label><br>
      <input type="text" placeholder="Enter Last Name" id="lname" name="lname"><br>
      <label for="mail">Email :</label><br>
      <input type="text" placeholder="123@gmail.com" id="mail" name="mail"><br>
      <label for="mail">Re-Enter Email :</label><br>
      <input type="text" placeholder="123@gmail.com" id="mail" name="mail"><br>
      <p id="p1">Gender</p>
      <input type="radio" id="male" name="gender" value="male">
      <label for="male">Male</label>
      <input type="radio" id="female" name="gender" value="female">
      <label for="female">Female</label>
      <input type="radio" id="other" name="gender" value="other">
      <label for="other">Other</label><br><br>
      <label for="birthday">DOB :</label><br>
      <input type="date" id="birthday" name="birthday"><br><br>
      <label for="uname">User Name:</label><br>
      <input type="text" placeholder="Provide User Name" id="uname"
name="uname"><br>
      <label for="pass">Password :</label><br>
      <input type="password" placeholder="Enter Password" id=""pass"
name="pass"><br>
      <label for="pass">Re-Enter Password :</label><br>
      <input type="password" placeholder="Enter Password" id=""pass"
name="pass"><br><br>
      <center><button type="submit" id="submit">Sign Up</button><button
type="reset" id="reset">Reset</button></center>
    </div>
  </form>
</body>
</html>
```

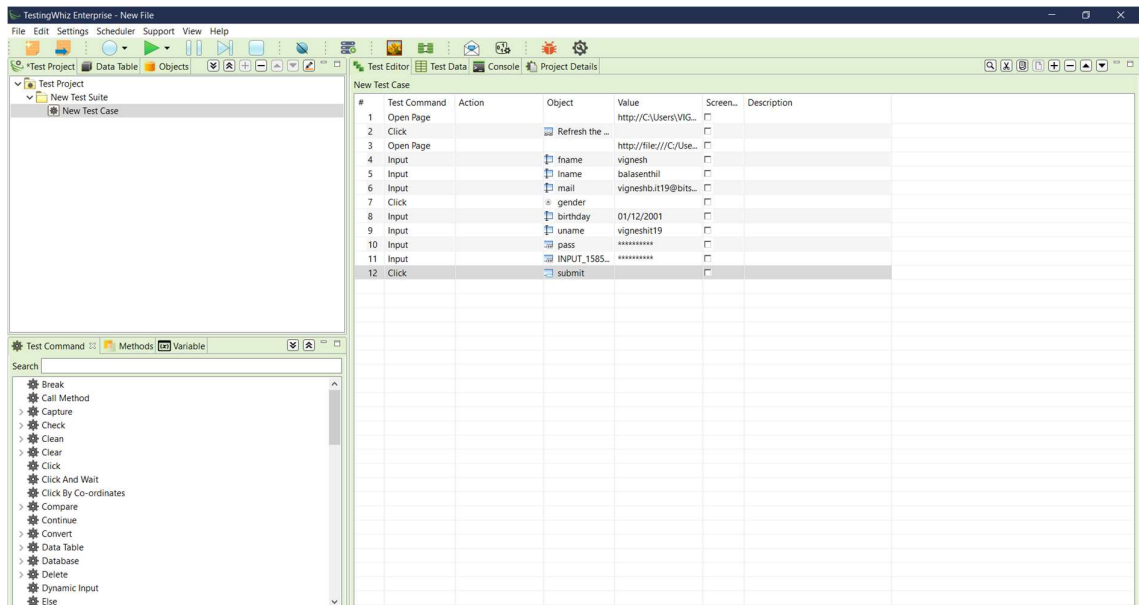

3) Recording The Form

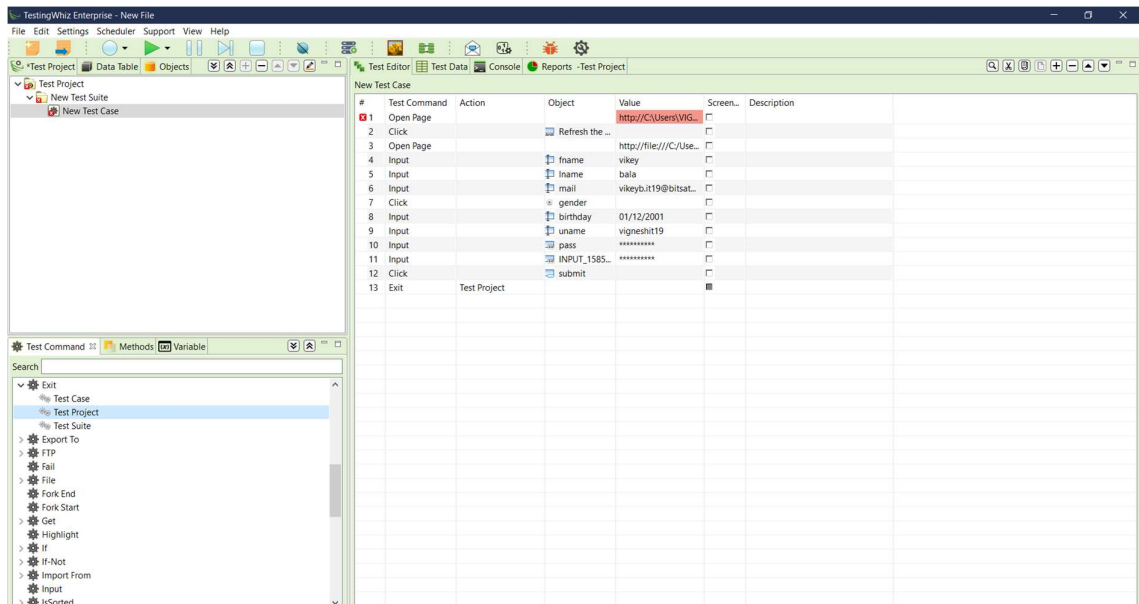

4) Now opening form in testingwhiz

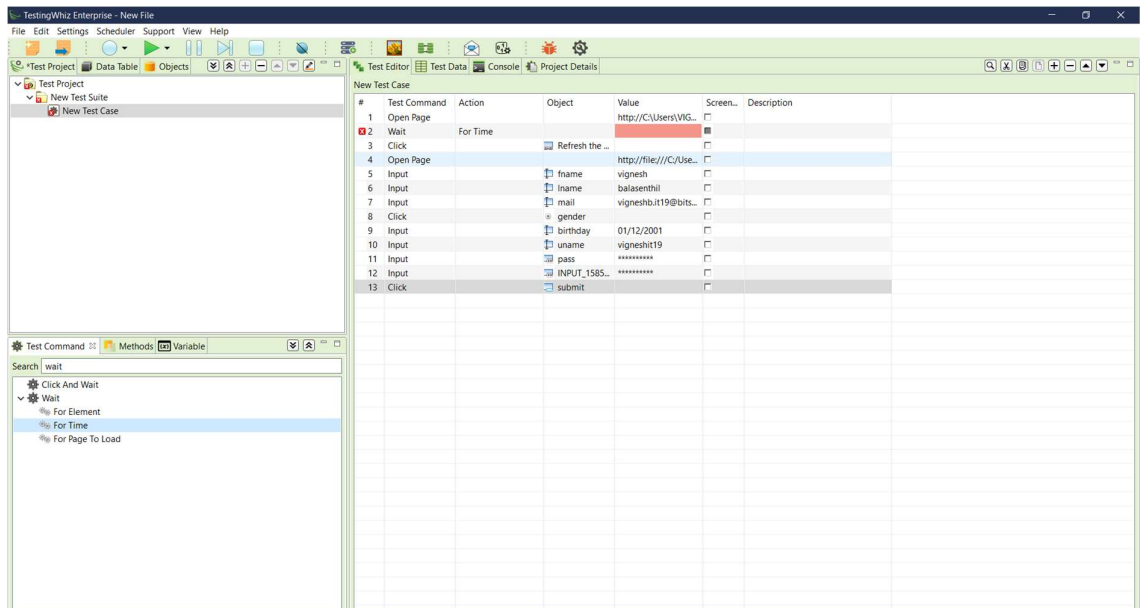

5) All the inputs are recorded

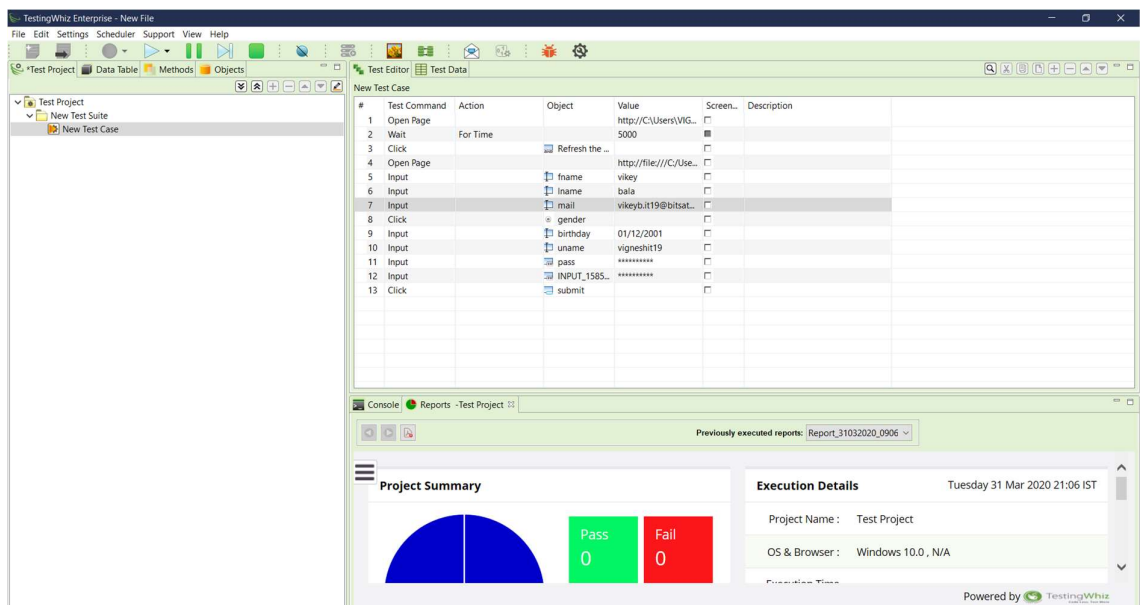

6) Adding Test command to test my form

7) Test report is obtained below
